PROFESSIONAL SUMMARY

Computer Science & Engineering graduate (Class of 2026) with hands-on experience in machine learning, database management, and full-stack web development. Built and deployed a real-time face recognition attendance system achieving 95% classification accuracy, reducing manual administrative work by 80%. Skilled in Python, SQL, and JavaScript, with a strong foundation in data preprocessing, predictive modeling, and end-to-end project delivery for real-world applications.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, C++, HTML5, CSS3

Machine Learning & Data Science: Scikit-learn, Pandas, NumPy, OpenCV, MediaPipe, Matplotlib

Databases & Tools: MySQL, SQLite, Git, GitHub, VS Code, Jupyter Notebook

Analytics & Reporting: Microsoft Excel, Power BI (basic)

PROJECTS & Work Experience

Face Recognition Attendance System | Python, Flask, SQLite, OpenCV

- Built an automated, real-time face recognition attendance system that achieved 95% classification accuracy and cut manual administrative effort by 80%.
- Designed an SQLite backend to store and query student records, generating automated daily attendance reports for faculty use.
- Developed a responsive admin dashboard in HTML, CSS, and JavaScript to manage records, review logs, and monitor attendance trends.

House Price Prediction Model | Python, Scikit-learn, Pandas, Jupyter Notebook

- Built a regression model to predict residential house prices from physical and demographic features, improving estimation consistency over manual baseline methods.
- Cleaned and preprocessed raw datasets — handling missing values, categorical encoding, and feature scaling — to improve model input quality.
- Evaluated model performance using Mean Squared Error (MSE) and R-squared, iterating on feature selection to improve predictive accuracy.

Interactive Tic-Tac-Toe Game | Python, Object-Oriented Programming

- Programmed a desktop game with a minimax algorithm-based AI opponent capable of optimal, unbeatable play.
- Designed a clean, configurable interface with adjustable difficulty settings to support varied user skill levels.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering

Gyan Ganga College of Technology, Jabalpur (RGPV University, Bhopal) | 2022 – 2026 | GPA: 7.2

Higher Secondary Education

Sarekha Kalan, Seoni (MP) | 2018 – 2022

CERTIFICATIONS

- Python Essentials I & II — Cisco
- AWS Cloud Practitioner Essentials — AWS
- AWS Machine Learning Foundations — AWS
